PERPETUALPOPS NADEX Trading Signals Drama Profits – Miracle Mega Comeback 9-2-2022 Sometimes the PERPETUALPOPS style of trading can provide for wild intraday rides. And many days you have up and down moves that allow for multiple profit opportunities if you were trading between the range on the smaller day spread or through support and resistance types of levels on the bigger NADEX day spread. Yes on some days you could have two, three or even four profits versus one profit or even versus one loss. But that’s another approach to trading which requires a lot of work and time and [...]
